

# foamsulate™ 50 Eplus

An Accella Brand

## PROTECT YOUR GREAT INDOORS

### CONTROL THE AIR

To create an energy efficient structure you need to control the air movement within. Roughly one third of the air inside a structure infiltrates through the walls, ceilings and floors. A structure that leaks is not energy efficient. Adding an advanced insulation system like **Foamsulate™ 50 Eplus** will help you control the air leakage. When properly installed by a certified contractor **Foamsulate™ 50 Eplus** will quickly expand to fill those common air infiltration areas like cracks, crevices, gaps and voids that exist in every structure. In addition **Foamsulate™ 50 Eplus** will conform to the curves, irregular surfaces and spaces to form a superior thermal envelope around your entire structure.

### R-VALUE

Typical r-value tests will measure only one component of the heat transfer process – Conduction (transfer of heat by direct contact). R-value alone does not properly reflect the insulating power of spray foam. When you combine the R-value of **Foamsulate™ 50 Eplus** along with its low air infiltration properties you can achieve a thermal envelope that is superior to traditional forms of insulation.

### REDUCE HEATING AND COOLING COSTS

What is the major reason you invest in a superior insulation system like **Foamsulate™ 50 Eplus**? To **reduce heating and cooling costs!** A properly installed **Foamsulate™ 50 Eplus** insulation system will generate long term savings of up to 40% on your heating and cooling costs.

## Open Cell 0.5lb

CCMC LISTING 13643-R

**Foamsulate™ 50 Eplus is our 0.5lb density open cell spray foam. A cost effective combination of R-value and air infiltration control within a spray foam application.**

### THE SMARTER CHOICE

Spray foam insulation forms the tightest, healthiest, and most energy-efficient thermal envelope in today's construction and remodeling projects.

### SAFE

Not only is spray foam insulation completely safe to use inside your home or business, it's a healthier alternative to traditional insulation. **Foamsulate™** helps keep pollutants and allergens out, and **improves air quality indoors.**

### AFFORDABLE

**Foamsulate™** is affordable to install, plus it delivers immediate monthly savings in heating and cooling costs and increases the value of your home. **Foamsulate™ pays for itself in energy savings in just a few years.**

### GREEN

Spray foam insulation's tight seal will dramatically **reduce your home's energy consumption—** and that's the most environmentally friendly thing any of us can do.

## TRUSTED CONTRACTORS

Every contractor in our network of certified spray foam insulation applicators has the professional training, safety credentials and experience to deliver the highest level of service and customer satisfaction.

## WHY FOAMSULATE™?

### SAVE BIG EVERY MONTH

A tighter thermal envelope saves you up to 40% on heating and cooling costs, right away.

### IMPROVE AIR QUALITY

Foamsulate™ 50 Eplus blocks tiny pollen, dust and pollution particles from entering your home, protecting your family and ensuring cleaner air.

### PROTECT YOUR INVESTMENT

Foamsulate™ 50 Eplus won't sag or settle over time like traditional materials. It can even make your building's structure stronger.

### KEEP INDOOR TEMPS COMFORTABLE AND CONSISTENT

Foamsulate™ 50 Eplus eliminates hot and cold zones in your home for comfortable temperatures year-round.

## SUPERIOR PERFORMANCE AND LONG TERM VALUE

- Reduce heating and cooling costs by up to 40%.
- Great combination of R-value and reduction of air infiltration.
- **Foamsulate™ 50 Eplus** will not sag or settle over the lifetime of your structure.

## IMPROVE AIR QUALITY AND OVERALL COMFORT

- **Foamsulate™ 50 Eplus** will expand to fill all those cracks and crevices to greatly reduce air infiltration.
- Less air infiltration means those pollutants, dust, allergens, etc. will stay where they belong – OUTSIDE!
- **Foamsulate™ 50 Eplus** will not support the growth of mould or mildew.
- By controlling the air infiltration you will experience a consistent comfort in your home – no more hot & cold zones!
- Enjoy the noise reduction qualities of open cell foam.

## THE ENVIRONMENT

- **Foamsulate™ 50 Eplus** has Zero Ozone depleting blowing agents.
- **Foamsulate™ 50 Eplus** contains plant based polyols. These are rapidly renewable materials designed for minimum environmental impact as well as performance, competitive pricing and stability of supply.
- At Accella we will always strive to utilize the latest environmentally sensitive technologies in our manufacturing process. We use recycled and renewable raw materials whenever possible while maintaining a product line that provides excellent performance and value.

## DOING IT RIGHT

- We strive for premium service and attention to customer satisfaction.
- Accella has developed an excellent reputation within the industry for our formulations. Our daily focus on continual improvement drives this success.
- Our products are applied by certified contractors.
- We offer more than the traditional class room training. Our technical staff will provide job site hands on training for our certified installers.
